

## WINE MENU

Wine plays an important role here at the Buccleuch. Our wine list provides a selection of wines and grape varieties from around the world, many of which we are able to serve by the glass.

These are all great wines, that is not to say you might not like them all!

We use a sliding scale for the mark-up on each wine and champagne, therefore the more expensive a wine is the less percentage of mark-up is added which should represent better value to you the customer. The majority of our wines will not be found on general sale throughout the country as they are sourced through our wholesalers.

## HOUSE WINES

This year, we are bringing all of our house wines from Franschoek Cellar in South Africa. The town of Franschoek derives its name from the French Huguenot families, who were allocated farms in the Oliphantschoek valley around the 1690s. Franschoek Vineyards was founded in 1945 by a group of local grape farmers to vinify their grapes on a co-operative basis. Nowadays Franschoek operates as a private winery producing superb wines that belie their price tag.
